Muhammad Zunnurain Hussain

has successfully completed the online, non-credit Specialization

Developing APIs with Google Cloud's Apigee API Platform

Developer Training is the core training that prepares you to design, build, and deploy an API solution using API Services on Google Cloud's Apigee API Platform. Developer Training is recommended for all developers working with Apigee, regardless of experience.

Google Cloud Training

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
